**Message from the
Quaid-e-Azam
Muhammad Ali Jinnah**

“You know that the importance of education and the right type of learning cannot be over-emphasized. Under foreign rule for over a century, in the very nature of things, I regret, sufficient attention has not been paid to the education of our people, and if we are to make any real, speedy and substantial progress, we must earnestly tackle this question and bring our education policy and program on the lines suited to the genius of our people, consistent with our history and culture, considering the modern conditions and vast developments that have taken place all over the world.”

The All-Pakistan Education Conference,
held in Karachi on 27th November, 1947

منزل سے آگے بڑھ کر منزل تلاش کر
مل جائے تجھ کو دریا تو سمندر تلاش کر

ہر شیشہ ٹوٹ جاتا ہے پتھر کی چوٹ سے
پتھر ہی ٹوٹ جائے وہ شیشہ تلاش کر

سجدوں سے تیرے کیا ہوا صدیاں گزر گئیں
دنیا تیری بدل دے وہ سجدہ تلاش کر

(1877 to 1938)
Allama Muhammad Iqbal**

**Message from the
Chairman BOG's &
Managing Trustee
Muhammad Adrees**

I feel very pleased and exalted when I find myself heading an organization like Aziz Fatimah Medical & Dental College Faisalabad. Its performance, since its inception in 2011, has been excellent. Its growth and glory are vivid evidence of the efforts done by its management, faculty and students. We all have laid the foundation of an institution with the vision to excel in medical field and provide unparalleled health services to the community at large. I appreciate the untiring and un-matched efforts of all those associated to AFMDC in any capacity and at any position. The man, ever since his creation, has been aspiring and struggling to measure the limits of this universe, on the one hand, and calculate and utilize the ultimate faculties of his own mind on the other. The wonders done so far, in all fields of life, by this super creature of the Almighty are the outcome of healthy human mind dwelling in healthy bodies. Maladies, since the first day, have been a continuous and disastrous threat to human health which not only hamper the routine growth and working of an individual but also prohibit the advancement and progression of a nation on the whole. Undoubtedly, the most researched and explored field of study, in human history, remains the study of human health, and centuries ago it had assumed the shape of a defined science. In the modern era, the fruits of the health researchers are being passed on to the ailing by the healthy administrators, physicians and surgeons. Aziz Fatimah Medical & Dental College welcomes the 10th batch of MBBS students. It is heartening to note that this institution has established its name and fame by imparting quality education not only in terms of formal professional education but also has endeavoured in character building of the future doctors. I do hope that with the arrival of new batch the vision, aims and objectives as perceived at the time of foundation would be fulfilled. I do hope that you will make all efforts to gain knowledge with its full application and prove to be a worthy citizen of this country. May Allah guide you and us in future nation building. Aameen. In the end, I assure my all-out help and support to AFMDC.

I am delighted to introduce Aziz Fatima Medical And Dental College (AFMDC) Faisalabad to You. AFMDC, is a private medical college in Faisalabad, Punjab, Pakistan. It is located on West Canal Road in the old Ghafoor Bashir Children Hospital Building. It is a project of Sitara Group of Industries and is affiliated with University of Health Sciences (UHS) Lahore. It is recognized by the Pakistan Medical and Dental Council with an annual admissions quota of 100 MBBS students. Aziz Fatimah Medical and Dental College has attached 500 bedded teaching hospital about 7 Kms from the college.

AFMDC is a progressive co-educational private college committed to provide quality and holistic medical education to all the students from inside and outside the country. It has quickly established a reputation for its academic excellence and caring environment. Here learning process is both thought provoking and enjoyable. Our students are encouraged to develop sound ethical values. Kindness, respect and politeness are instilled within a safe and nurturing environment.

Our aim is to develop future doctors who are socially responsible, caring and creative with good self management and interactive skills. They should have significant contribution to the society through their honesty and dedication. We aim at setting high standards in education while maintaining a balance between wisdom and evidence based medicine.

AFMDC is among those few private medical colleges which have been charging students exactly as per PMDC rules. Hopefully in near future this medical college will be converted into a medical university. It's nursing and paramedical college have already been approved. Its affiliated hospital recognized by college of physician and surgeon for post graduation. Dear Students I hope you will enjoy 5 year of your stay with us.

**Message from the
Principal
Prof. Dr. Noor Akbar Sial**

Vision Statement:

Aziz Fatima Medical and Dental College will promote health care leaders who are critical thinker, ethical, research oriented, culturally and professionally competent.

Mission Statement:

- To provide an educational environment conducive to learning and skill development.
- To equip medical students with medical knowledge based on critical judgment, clinical evidence and community experience.
- To inculcate professionalism, vigor and ethical values in students, thus enabling them to heal the ailing community with compassion.
- To develop lifelong learners.
- To develop future researchers and community leaders.

Purity

Piety

Perseverance

Preaching

Patience

Admission Procedure

The admission in MBBS degree will be solely done as per rules and regulations of Pakistan Medical Commission (PMC) and University of Health Sciences (UHS).

Fee Structure

Fee will be charged according to Pakistan Medical Commission (PMC) rules and regulations.

Bank Account Detail for Deposit of Fee/ dues

A/C Title : AZIZ FATIMAH MEDICAL & DENTAL COLLEGE

A/C NO. : 5544 - 5001169407

BRANCH : BANK ALFALAH ISLAMIC, CANAL ROAD BRANCH, FAISALABAD.

NTN NO. : 0659132-9

Note:

Any change in Fee structure will be applicable accordingly.

a. Strict Criteria for sending admissions in annual examination include :

- i. 75% attendance in each subject and ward rotations.
 - ii. At least 50% result for internal assessment (Sendup and Class tests/tutorials/Stages) in individual subjects.
- A candidate who fails in one or more subjects in a Professional Examination shall attend the classes of next higher class till the commencement of supplementary examination. The candidate, however, will have to pass the failed subjects in the supplementary examination, failing which he/she will be detained in the junior class. Under no circumstances, a candidate will be promoted to next higher class till he/she has passed the Professional Examination of preceding class in every subject.

Please note carefully, No excuse for now onwards;
Moreover, habitual failures will also attend the classes and appear in class tests and sendups. Less than 50% marks in internal assessment will make them ineligible to sit in university exam automatically. This step has been taken to improve standard of college.

- b. Quarterly evaluation of students shall be sent to the parents.
- c. Quarterly parent teacher meeting session shall be held to discuss performance of students.

Aziz Fatimah Medical & Dental College (AFMDC) is a project of Aziz Fatimah Trust, established under the umbrella of Sitara Group. AFMDC has strived hard under the dynamic leadership and guidance of our Chairman BOG's and has achieved unique honors and distinction. An artistically designed campus sprawling over more than five acres nearly 75,000 square feet covered area situated in the prime location of west canal road, Faisalabad. The area is developing very fast and in near future it will be the hub of modern education. The college has magnificent building with beautiful landscaping and pleasant environment. The campus has excellent infrastructure with facilities for sports, hostels (boys & girls), cafeteria (for the faculty & students), mosque, auditorium etc. Lecture theaters are air-conditioned with comfortable seats and teaching aids like multimedia and white boards. All the laboratories and museums are fully equipped. The digital library for teachers and students is meant for acquiring latest scientific knowledge

Two separate hostels for boys and girls with all facilities for the students are available adjacent to the academic campus. All facilities and logistics are available for extracurricular activities. Transport facility to pick and drop the students from the college to the hospital and from the hospital to the college is available. Thousands of medical text books of latest editions on different subjects are available in the library for students. Reference books are also made available for teaching staff. Besides this, full-fledged computer section with multimedia and internet facilities is available. Medical Education Department has also been added to complete the PMDC requirement. All the academic facilities namely; dissection halls and laboratories for various basic subjects like Anatomy, Biochemistry, Histology, Physiology, Pharmacology and Pathology are well equipped and of highest standards.

MBBS program is designed to train students with the clinical skills and knowledge for providing modern healthcare. The PMDC curriculum is taught in an innovative format, integrating interactive and traditional lecture style classes with small group discussion, problem based learning, seminars and laboratory exercises. We emphasize on self-directed learning and teamwork. Main stress is given to inculcate moral, ethical and spiritual capabilities to face social and medical problems with great expertise, acumen, dedication and devotion. The college is permanently recognized for 100 MBBS students per year, affiliated with Pakistan Medical & Dental Council and University of Health Sciences, Lahore. The College has impressive museums of Anatomy, Pathology, Pharmacology, Forensic and Community Medicine.

Aziz Fatimah Medical & Dental College has a dedicated hospital for coordinated & prompt clinical training. Aziz Fatimah Hospital is a welfare wing of Sitara Group for the People of Faisalabad. Sitara Group of Industries is renowned Industrial Group of Pakistan involved in the production of textiles, chemicals and industrial gases.

The hospital was established in 1979 by the group elders and was inaugurated by, the then, President of Pakistan General Muhammad Zia ul Haq on 25 Aug, 1980. Aziz Fatimah Hospital is an ISO 9001 certified teaching hospital recognized for House Job and Post Graduate Training. It is a 500 bedded hospital located right in the middle of Faisalabad city. Major portion of hospital is providing Medical Care to the population in and around Faisalabad on No-Profit & No-Loss basis since 1978. Total area of the hospital is 44 Kanals 11 Marlas.

Patients Turnover

About 1000 patients report daily in OPD, out of which 600-800 get free medical consultation. There is more than 80% occupancy bed on any given day in last two years in Indoor.

Specialists Available

Physician, Pulmonologist, Pediatrician, Neonatologist, Cardiologist, Gynecologist, General surgeon, ENT Specialist, Eye Specialist, Orthopedic Surgeon, Neuro-Surgeon, Psychiatrist, Urologist, Dental Surgeon, Radiologist, Physiotherapist, Gastroenterologist, Nephrologist, Dermatologist, Anesthesiologist are available in the hospital.

Indoor Facilities

Besides general male and female wards of each specialty for non-affording patients, there are semi private cabins and private rooms too.

Other facilities include Labor Rooms, Infant Nursery, Operation Theaters, Laparoscopic Surgery, Dialysis Unit, Intensive Care Unit, Eye Laser Treatment, Vaccination & Immunization Services & Ambulance Service.

Diagnostic Facilities Available

CT Scanning, MRI, X-ray, Mammography, ECG, almost all Laboratory Tests, Echocardiography, ETT, Color Doppler Studies, Ultrasonography, Stress Test, Image Intensifier, Nerve Conduction Studies, Arterial Blood Gases, Pulmonary Function Tests, Vitalography, Tympanometry, Audiometry, Gastroscopy, ERCP, Colonoscopy, Sigmoidoscopy, Laparoscopy, Arthroscopy, Cystoscopy are available.

Programs / Courses Offered:

Aziz Fatimah Medical And Dental College

The department of Anatomy is the largest pre-clinical department and occupies a separate block adjacent to college entrance. The anatomy department has a fully equipped, well ventilated, air conditioned and spacious Dissection Hall with mortuary plants for storage of cadavers. The histology laboratory is unmatched and equipped with latest tools for microscopic tissue preparation and high quality binocular microscopes for self study including bihead microscope for teaching purposes which can also be attached to monitor or LED TV through state of the art camera mounted on the microscope. The Histology laboratory has a vast collection of microscopic slides of human and animal tissues for study purposes. Students have free access to them. The department also has state-of-the-art Anatomy museum with over 100 important models of the human body. Models range from the various human development stages to life-size human torsos, disc torsos, skeletons, enhanced models of organs of special senses and functional models of various organs and systems of the body. There is also a bone bank for the students from where bones can be borrowed for study at home. There is one lecture hall and two tutorial rooms in the department. Offices of the faculty are provided with computers, air conditioner, modern furniture and display boards for the important notices .

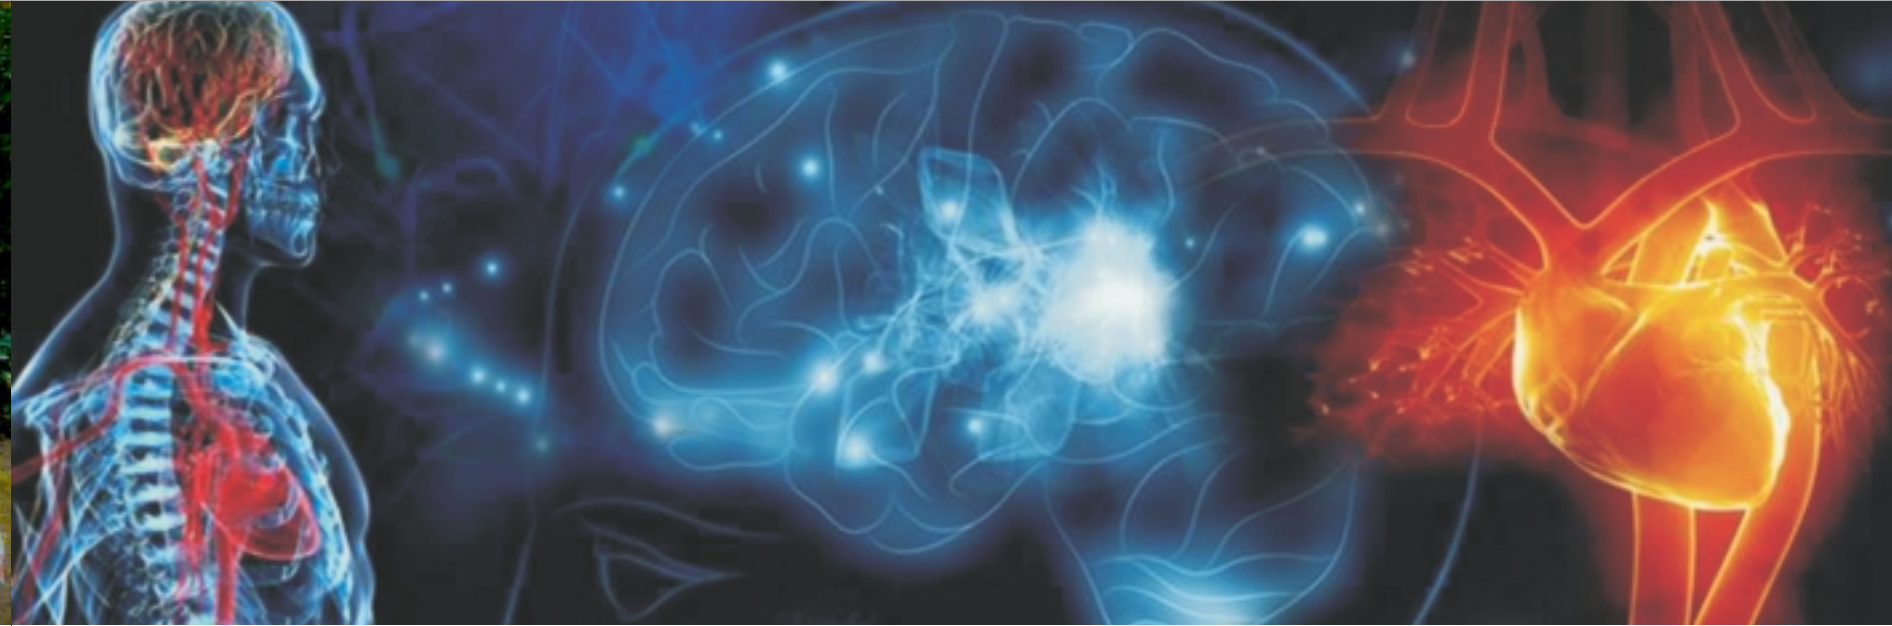

There is one main notice board of the department where important notices are displayed for information of students. Different charts from gross anatomy, histology and embryology are displayed on the walls of the histology laboratory, dissection hall, museum and area in front of the offices. The department of anatomy conducts lectures, dissection, practicals, tutorials and small group discussions to teach gross anatomy, histology and embryology. Moreover, substages and stages are arranged for the assessment of the students in gross anatomy. Term tests and monthly tests are arranged to assess the students in histology, general anatomy and embryology.

Our body is nothing short of an amazing machine. No machine ever constructed can perform even a minutest body-like function as effectively as our bodies can do. Physiology aims to understand the fascinating mechanisms of our body. Human physiology studies how our cells, muscles and organs work together, how they interact. Physiology, sometimes referred to as “the science of life”, looks at living mechanisms from molecular basis of cell function to the whole integrated behavior of the entire body. Our shared vision is to develop high quality professionals to pursue the excellence in the field of medicine and surgery.

Our mission here at the department of Physiology AFMDC is

- To provide theoretical and practical knowledge/skills through quality teaching.
- To provide standard education and practical skills and to impart undergraduate students a quality education to cope up with the international standards.
- Communicate clearly and in a way that reflects knowledge and understandings of the human body.

The Physiology is well equipped with all necessary equipments along with latest power lab. It has the capacity of more than 50 students. The department has also computer facility to maintain departmental record, prepare lecture slides and demonstrate audiovisual CDs. Teaching strategy includes interactive lecture, small group tutorial, and practical to provide flexible multi method learning opportunities. Students are continuously assessed depending upon their performance throughout the year. Seminar and quiz are also conducted and arranged to involve the students and to increase their interest level. Teachers focus on self-expression, discovery and enthusiasm among learners.

Biochemistry is the study of molecular/chemical basis of life. It has revolutionized our understandings of life and provides a backbone of modern biomedical sciences. The teaching strategies and methodologies of Biochemistry Department embody and encompass a fundamental approach to the chemistry of life and convey the strongly unifying contribution of molecular biology to other biomedical disciplines, according to the UHS and PMDC syllabi and guidelines. The teaching staff members are qualified, some with postgraduate qualifications with immense experience in teaching biochemistry.

Establishment of research on firm grounds is a hallmark of the department. Students participation in these endeavors is highly encouraged and appreciated. The college administration has extended complete support to the department in its research ventures. The department is striving to achieve its academic goals and set higher ones as challenges for the future. Biochemistry department is facilitated with teaching and supporting laboratory staff, and equipped with furnished laboratory for qualitative and quantitative biochemical analyses according to the curriculum accredited by University of Health Sciences (UHS).

Teaching staff is groomed to take up the challenging teaching assignments set up by the Principal and Head of Department. Practical training of the subject has been devised and the focus has been shifted to diagnostic Biochemistry, in accordance with the UHS syllabus. Students are trained to perform laboratory experiments like renal function tests, liver function tests, cardiac profile, urinalysis, etc.

The laboratory has all types of modern and sophisticated laboratory equipments as per PMDC requirements. Department of Biochemistry has a well equipped laboratory being managed by qualified and experienced technical staff. Biochemistry laboratory is equipped with all essential lab equipments to perform experiments.

The equipments includes centrifuges, controlled temperature water bath, spectrophotometer, hot air oven, magnetic stirrers, digital balance, electric water distillation apparatus and microscopes etc.

The department follows a proficient and result-oriented teaching methodology which includes formal lectures, small group discussions (tutorials) and practical. Lectures are made interesting and easy-to-understand for the students by using multimedia aids along with related videos & animations, and power point presentations. Participation from students' part is encouraged to make the teaching/learning sessions interactive and productive. Students are evaluated in small group discussions, their shortcomings are highlighted and remedies for the same are suggested. Regular class tests encompassing all formats of assessment like MCQs, SEQs and viva voce are regularly conducted at the end of each topic. At the end of each term, the term tests and at the end of each academic year, a university standard send-up examination is conducted to constitute a rigorous examination drill for the students.

One of the host of medical sciences, Pharmacology can be defined as the study of the effects of the drugs on the function of living systems. Pharmacology is one of the main subjects of 3rd professional MBBS. It includes the study of major classes of clinically important drugs currently used in medical practice. The course covers Fundamental principles of drugs action and various mechanisms by which drugs can mediate their pharmacological effects, principles of pharmacokinetics that modify the absorption, distribution, metabolism and elimination of drugs in the body.

The students acquire understanding of rationale behind designing different dosage regimens in specific patient populations, understanding of patient characteristics that can affect the response of the drug and undesirable effects of the drug. The department of Pharmacology has competent and skillful faculty members striving hard to achieve the highest level of excellence.

A good physician has to be a good pharmacologist. With well-qualified and experienced faculty guiding them, students can look forward to an interesting learning experience. Pharmacology Department has a fully equipped laboratory that provides the resources for practical training in experimental pharmacology, clinical pharmacology and pharmacy.

The pharmacology museum has a collection of all possible salts that are used in the preparation of drugs. It also has samples of drugs by Generic as well as by Trade names. The department of Pharmacology at AFMDC aims:

- To attain the highest level of glory and excellence in the field of pharmacology through quality teaching and practical learning.
- To make this department to produce highly competent doctors so that they may serve for the benefit of humanity and contribute to the development of nation.
- To provide students with a solid grounding in the basic concepts and scientific underpinnings of pharmacology.
- To provide students with comprehensive introduction to pharmacology.
- To create an environment conducive for learning.
- To produce high quality professionals through teaching and practical knowledge.

Department of Pharmacology, AFMDC has two offices, one well equipped laboratory and auditorium with modern teaching facilities like projector, multimedia. Lecture hall has got seating capacity for almost 150 students. The laboratory has the capacity for more than 60 students. Department is also provided with computer facility in order to maintain the record and preparing lectures. There is a museum of Pharmacology having herbal medicines, a traditional way of curing disease. Different dosage form of drugs like tablets, capsules, syrups are displayed for the students. Different medicines currently in use are also displayed according to their specific classification.

The Department has a well equipped lecture theatre, forensic lab and a forensic museum. The lab consists of serology test facilities. It also has glassware, chemicals and analytical equipment for the purpose of toxicology teachings. The forensic lab is fully equipped with latest apparatuses, multimedia and computers, good artistic models, flexes, weapons, crime scene posters and medicolegal photographs. There are many poison specimens in the museum. This whole arrangement is meant for giving latest scientific knowledge to the medical students and they are being trained for autopsy, medico legal work and other aspects of the subject.

The department has an air conditioned lecture theatre, an air conditioned forensic laboratory, forensic museum and demonstration/ tutorial rooms. Forensic medicine brings the investigative capabilities of modern medicine to the aid of law and justice. Students have an opportunity to apply knowledge of the various sciences to the human body. Students are taught about different aspects of forensic medicine. The faculty members keep themselves updated of latest developments in the international scene.

Teaching of medical students is made by general lectures, demonstrations and tutorials making use of multimedia, computers, models, specimens, microscopes. This department is also affiliated with forensic department of Punjab Medical College Faisalabad for learning of autopsy/ medicolegal work. Third year MBBS class students visit mortuary and medicolegal clinic of Faisalabad Medical University (FMU) and practically see the dead bodies and autopsy work being done. This is meant for training the medical students in forensic work appropriately. This department comprises of trained and skilled teaching faculty along with trained lab staff.

The Department of Psychiatry and Behavioural Sciences at the Aziz Fatimah Medical & Dental College strives to be a paragon of innovative education, scholarship and clinical care in mental health and behavioural sciences. Through core values of quality, compassion and integrity we provide outstanding mental health education and training to the medical students who will be the next generation of healthcare providers. At the affiliated hospital, the department offers comprehensive treatment to patients, their families, and the community in all common psychiatric disorders. The students who will join the Aziz Fatimah Medical & Dental College, will be trained to develop and implement new ideas to understand, prevent and treat disorders of the brain and mind through innovative research, an outstanding educational program and quality clinical services in a conducive learning environment provided by the Department of Psychiatry and Behavioural Sciences.

The department of Pathology comprises of general and special pathology including histopathology, hematology, microbiology and chemical pathology. Teaching of general principles are supplemented by experimental work by which students are equipped with the skills required for the collection of different specimens for the pathological analysis and are able to perform commonly used tests done in the laboratory. The aim is to produce clinicians with better understanding of the disease process so that they objectively use diagnostic tools designed to help them to reach a conclusive diagnosis in the shortest possible time. The curriculum therefore covers every known aspect of modern day investigations being carried out across the globe. The department has achieved excellent result in the last academic session.

The department has an adequate slide bank and gross specimen collection for the teaching purposes. This department is also equipped with a Penta Head with LCD display screen and a bihead microscope for proper explanation of the microscopic slides. Individual student binocular microscopes are also available for proper training. The department also has two labs along with experienced teachers and technical staff.

Pathology department is a continuous source of encouragement for its faculty members to acquire post graduation. The academic session includes lectures, practical microbiology, histopathology slide discussions, museum classes, tutorials and small group discussions for MBBS students. Pathology is taught during the third and fourth years of the MBBS program. The students are evaluated internally and externally. The department has a well-designed museum displaying neatly mounted specimens and several detailed and highly informative charts/ graphs.

This department imparts Community Oriented Medical Education (COME) and Community Based Medical Education which enables the medical students to appreciate disease not just in an individual patient but also to have a holistic approach regarding the spectrum of disease in the whole community. This renders the doctor even more useful to the society as then he may treat only one individual but prevents hundreds and thousands from the same disease.

The department museum is well equipped with required models, specimens and equipment for practical demonstrations and tutorials. Field visits of places of public health importance, household surveys and research work is being arranged regularly. The department has a lecture hall which can accommodate above 100 students, 3 offices and a beautiful museum for practical training of students. The department also has computer facility to maintain department records and to prepare lectures, slides and demonstrations. The staff is involved in teaching community medicine to 4th Year MBBS class through lectures, tutorials, presentations and field visits.

Close and excellent student-teacher relationship is maintained to produce excellent doctors. The teaching is done with the most modern methods i.e. with the help of latest audiovisual aids like multimedia & projectors, achieving excellent results. Since teaching is an ongoing process, the faculty members participate in various workshops and seminars are supervised by experts of national repute to refresh and update their knowledge. Research has been made compulsory for the students of 4th year MBBS by UHS, so the students are trained for research paper writing by giving them regular assignments having reference from most modern journals under supervision of our staff members.

The department of Medical Education is working for research, integration and in time covering of curriculum, introducing new teaching methods, innovation of modern learning modules and techniques, introducing and applying new assessment and evaluation methods for examining the students. Presently, the department of Medical Education is working very efficiently on CME and CPD under the guidance of PMDC through University Of Health Sciences and has conducted a lot of CME workshops of higher standards. This department is published the newsletter and 1st magazine of the college. DME is working on professional and personality building of students and faculty through academic and co-curricular activities. The department is playing a role in establishing good relationship between parents, teachers and students. The DME is the vital department in interlinking all the basic and clinical department according to Pakistan Medical & Dental Council (PMD) rules and regulations.

In today's world, Medical Education is a rapidly changing field reflecting the pace of technological advancements in healthcare. The Department of Medical Education (DME) at AFM DC was established in 2012 in response to these emergent trends in educational delivery and aligning them with the vision and mission of AFMDC. Since its inception, the DME is committed to provide Continuing Medical Educational/Clinico Pathological Conference (CME/CPC) and training facilities for its faculty and students, in addition to introducing student support services. A comprehensive faculty development program through regular workshops ensures that the academicians are abreast of the latest skills necessary for teaching/learning and assessment. Since its creation, it has been striving to promote friendly institutional environment and regularly helping and monitoring teaching, learning and assessment activities.

The future plan is video links and on line facilities for registration, CME and e-learning. A dedicated, experienced faculty and staff is the main asset of the department. The DME has developing collaboration with leading medical institutions.

The department of medicine is an important component of Aziz Fatimah Medical & Dental College, Faisalabad. The infrastructure consists of emergency ward, outdoor and indoor units, separate functional neurology, dermatology, psychiatry, cardiology and nephrology units, ICU, HDU, endoscopy and bronchoscopy facilities. The ICU is well equipped and has modern equipments like holter monitorand echocardiography. Department of medicine is recognized by CPSP for postgraduate training in medicine.

The laboratory and radiology departments provide a very good support in hospital with modern facilities. The department has 2 units and has 100 beds. It is able to provide support to sufficient number of patients as well as to medical students to help them learn to become good professional doctors.

Surgical services of AFH are planned on the extensive scale so almost all forms of tertiary care surgical facilities are available in the hospital. Operation theatre services are equipped by the latest equipment/instruments and hospital has a modern operation theatre. Section of general surgery is headed by a competent surgeon and is dealing with all forms of general surgical procedures. Quality care is the concern of the hospital so all pre-operative screening is performed by surgeons and anesthetist and only after assurance of safety of surgery, services are delivered.

Our gynecology ward consists of 60 beds. Both obstetrics & gynecology patients are admitted in the ward for antenatal, postnatal, preoperative and postoperative care. The ward is equipped with trained staff having capability to attend all sorts of gynecological emergencies. It is one of the extensive departments of the hospital providing round the clock services of Gynecology & Obstetrics. Department has renowned gynecologists for the provision of outdoor, indoor, labour room and operation theatre duties. Round the clock medical cover by female medical officers is available, whenever need arises patients are taken care of by experienced on duty doctors and staff. In OPD, there is a separate examination room with proper illumination and sterilization. Gynecologists perform transabdominal and transvaginal ultrasound in OPD. Operation theatre is equipped with anesthesia machine, ventilator and sterilized instruments. Department has a fully equipped labour room with delivery tables and sterilized instruments and CTG machine for antenatal assessment. There is round the clock nursing services available to the incoming patients while one operation theater is only reserved and is attached with the labour room for gynecological operations. There is baby warmer in the labour room with emergency medicines for newborns.

This is another pride of Aziz Fatimah Hospital and range of services provided by this department. It is also unique in the Private Sector in Faisalabad Division. Services consist of general children ward for routine care, neonatal nursery for the care of sick new born and children intensive care unit for the treatment of critically ill children. At present, the department is getting reference admission from all over the city and its periphery . Hospital has provided free/subsidize medical services to the needy and poor patients. Department has separate staff and doctors available round the clock. Department has all the latest equipment of child care such as incubator, photo-therapy units, ICU beds, and exchange transfusion facilities. Separate emergency services are provided to pediatric population in purpose built pediatric emergency unit round the clock. Entry and exit from the nursery and children ICU is properly guarded to stop the spread of infection inside.

Information for House Job

1. Aziz Fatimah Hospital is recognized for house job as per PMDC regulations.
2. A valid provisional certificate from PMDC is required before awarding house job or internship.
3. House job for MBBS graduates include 4 modules with 3 months each.
 - a. Internal Medicine
 - b. Medicine and Allied
 - c. General surgery
 - d. Surgery and Allied
4. BLS certification shall be provided to house officers during their training in order to facilitate for full registration from PMDC.
5. Foreign graduates should follow guidelines provided by PMDC.
6. Selection of House officers shall be done through interviews. It is compulsory for the interviewers to make themselves aware of the list of emergencies given at the end of 'Oxford handbook of Medicine' as they will be asked about it at the time of interviews.

Education is a process whereby a student is transformed into a self learner. Educational objectives are taken as the learning objectives rather than the teaching objectives. The objective of MBBS curriculum is to prepare a general medical practitioner and community oriented doctor, competent to deal with common health problems of people on scientific basis as laid down by Pakistan Medical & Dental Council. Essential quality of educational objectives is, therefore, its relevance to the health needs of the society. We are Gradually moving from conventional teaching methodology.

The students are fully exposed to the social and cultural environments. Hence, they learn the important elements of community life and relationship of these elements with the health related factors and activities. They apply their knowledge of social and cultural aspects to find the solutions of community health problems. They carefully and keenly listen to the words the patients speak, to express their physical problems and then scientifically analyze it. Our educational strategy covers the curriculum of studies for MBBS, as laid down by the Pakistan Medical & Dental Council and the University of Health Sciences, Lahore.

Learning Methods

- Interactive Lectures
- Dissection
- Seminars
- Field Visits
- Tutorials
- Problem Based Learning (PBL)
- Small Group Teaching
- Evidence Based Medicine (EBM)
- Research Projects
- Case studies
- Poster Presentations
- Practicals
- Self Study
- Assignments
- Interactive Sessions

Library

A spacious Library has been established which consists of lending and reference portions. Library is fully Air-Conditioned and more than 10000 books on different subjects are available. In addition to books more than 200 Journals and more than 2000 on line Journals are available. The books and Journals have been catalogued and arranged subject wise in cabinets. Library is headed by a qualified Librarian assisted by other supporting staff. In addition to old one a new library 500 sft is building up.

Digital Library

Digital library catalogue is available on campus vide LAN. With its internet and CD ROM facilities, the library plays an important role in disseminating, identifying and locating materials. In addition, the college is subscribing to about 15 journals and magazines including 10 research journals having an impact factor ranging from 0.5 to 23.

The library has access to digital library of Higher Education Commission of Pakistan which provides researchers and other user's access to databases pertaining to international Scientific and Technical literature based on electronic (online) delivery and to 12,000 high quality,

Library Rules & Regulations

- (a) A maximum of three text and related text books can be issued at any time for two weeks to students.
- (b) Borrowed book will be reissued only once.
- (c) Fine will be charged per day per book after the expiry of due date
- (d) Any repairable damage to the issued book/s will be done at the expense of the borrower. For non repairable loss, replacement of book will be required.
- (e) Library membership is compulsory for all admitted student.

Labs and Museum

There are separate laboratories present on every floor in the main college block which are specialized for each department. This includes a separate lab for histology, biochemistry, physiology, pathology, pharmacology and forensic medicine. Each laboratory is facilitated with state of the art technology to accompany teaching provided by well-trained faculty and lab assistants. Each student is provided with their own individual laboratory instruments.

Mosque

For the students a mosque is provided by AFMDC. It can accommodate about 100 persons at a time. There is a complete Islamic architectural touch in the building.

Lecture Halls

The majority of classes at the medical school are carried out in contemporary lecture theatres that are equipped with comfortable seating and multimedia resources to allow interactive teaching. Teaching is divided between lecture theatres and laboratories where practical work takes place. The year group is split into sets and taught in smaller groups with a small student to teacher ratio, allowing students to address their individual problems with greater ease.

Cafeteria

A standard cafeteria is available in the college. All the fast food and soft drinks are provided to the students and staff on payment. A Cafeteria Committee supervises its activities. It is compulsory for hostel residents to be member of dinning mess. Otherwise it becomes impossible to run the mess. Mess committee comprising of students can change the menu if they want.

College offers variety of recreational facilities and extracurricular activities for its students. The students are encouraged to take part in extracurricular activities. There are a many benefits the students will enjoy if they are allowed to get involved with these activities. The benefits of these activities may include

- Learning Time Management and Prioritizing
- Learning about Long Term Commitments
- Raises self esteem
- Getting Involved in Diverse Interests
- Making a Contribution
- Building Solid Relationship Skills

The following extracurricular activities have been arranged for the students.

- Athletics
- Football
- Cricket
- Badminton
- Basket Ball
- Volley Ball
- Table Tennis
- Snooker
- Chess
- Body Building & Gym facilities available at Subsidiary rates

Sports

Cricket, Football and Athletics ground are ready and sports goods for these games have been purchased. A Club Building and a Basket Ball Court are being constructed. Badminton Courts are already present in the Boys and Girls Hostels. Annual Sports days are celebrated every year in a befitting manner. All students and staff participate in this colorful event. These events create a healthy environment for the students and inculcate a sense of healthy competition in them. Winners are awarded prizes, shields and Trophies.

Creative Activities Clubs

The following Clubs have been established to generate creativity in students.

1. Literary Club
2. Dramatic Club.
3. Photography Club.

Debates are held every year at the college premises for the cultural and intellectual enhancement of students. The students actively participate in the events.

Patient Welfare Activities

Blood Bank, Drug Bank and other welfare activities have started for the welfare of deserving patients. These are managed by the College students and supervised by the teaching staff.

Settling in a new environment is not an easy task. The college administration is well aware of this fact. At AFMDC, every effort is taken to make the students & parents feel comfortable and well-acquainted with the atmosphere. After induction, the first week for the students is dedicated for orientation with different departments and college building. On the very first day, the students and their parents are invited and welcomed by the principal and college administration. All heads of departments and faculty members are introduced. Later on, students are taken to a guided tour of college and hospital.

White Coat Ceremony

White coat is considered a symbol of dignity, nobility and professionalism for a doctor worldwide. To endorse that, college administration organizes a white coat ceremony every year for the freshmen. In this ceremony the principal formally welcomes the new batch with a hope that they would wear their white coats in future with dignity and grace.

All the students will have to strictly follow the general rules and regulations of the college which are related to the campus, hospital and hostel. Their violations are discussed by Disciplinary Committee.

Attendance

Each student must ensure at least 75% attendance in lectures, practical and clinics which is mandatory for appearing in the university examinations. Students failing to fulfill 75% attendance criteria will not be allowed to appear in the Annual UHS Exams.

Academic Performance

The performance records of internal and university examination of students are continuously monitored to judge their requisite suitability for continuation of medical education at the college. Unsatisfactory academic performance leads to appropriate action against the concerned individual.

Class Discipline

Teachers and students maintain a highly professional interaction in the sessions which is a very distinct feature of college and the same has to be continued at all times. Students must switch off their cell phones before they enter the lecture room, laboratory, library and wards.

Peaceful Environment

The maintenance of a safe and secure environment in the campus, hospital and hostels has immense importance in a professional institute. The college accords the highest priority to this vital aspect.

Correct Attitude & Behavior

The students are completely facilitated to devote themselves in their professional studies and expected to shun unwanted social trends. The possession and use of weapons and substance of abuse, keeping of objectionable materials and pets, smoking etc are totally forbidden in the campus, hospital and hostels.

Politics and Religion

The involvement of the students in any sort of political, sectarian, ethnic and other such activities in campus, hospital and hostel is viewed with zero tolerance by the college administration.

Moral and Ethics

The students must essentially display the highest moral and ethical standard at the college and hostel.

Disciplinary Action

The decisions taken by the Principal and disciplinary Committee against students for violating the code of conduct will be final and can include immediate rustication, disallowing to apply for university examination roll number or it may be expulsion from college.

Hostel Discipline

Our excellent hostel buildings equipped with the modern facilities have been recently constructed to ensure a student friendly environment with comfortable living standards. The boarders are expected to enjoy their stay without any distraction and disturbance. The hostel wardens facilitate the maintenance of a congenial environment and living of students in a disciplined manner.

College and Government Property

The care and safety of all the property used by students will be ensured by themselves by preventing any willful damage, loss or theft.

Liaison with Parents / Guardians

Parents / Guardians will be kept informed of the academic performance of the students on regular basis.

Law and Security

The laws of country and the common rules about security of information, men and materials regarding Armed Forces will be strictly followed by the students.

Disciplinary Actions

Various disciplinary actions taken by the committee according to the nature and degree of violation of rules by the students after the deliberations of committee will be as under: -

- Withdrawal from College rolls.
- Cancellation of hostel allotment
- Cancellation of leave
- Cash fines
- Extra Library sitting
- Ban to visit cafeteria and hostels
- Formal warnings to students with information to Parents / Guardians Disallowing to apply for university examination.

In order to discourage students staying in private hostels outside college premises: no facility of using canteen/ sports grounds/library etc will be extended to them. Recently incidents of drug addiction and other immoral activities have been noted.

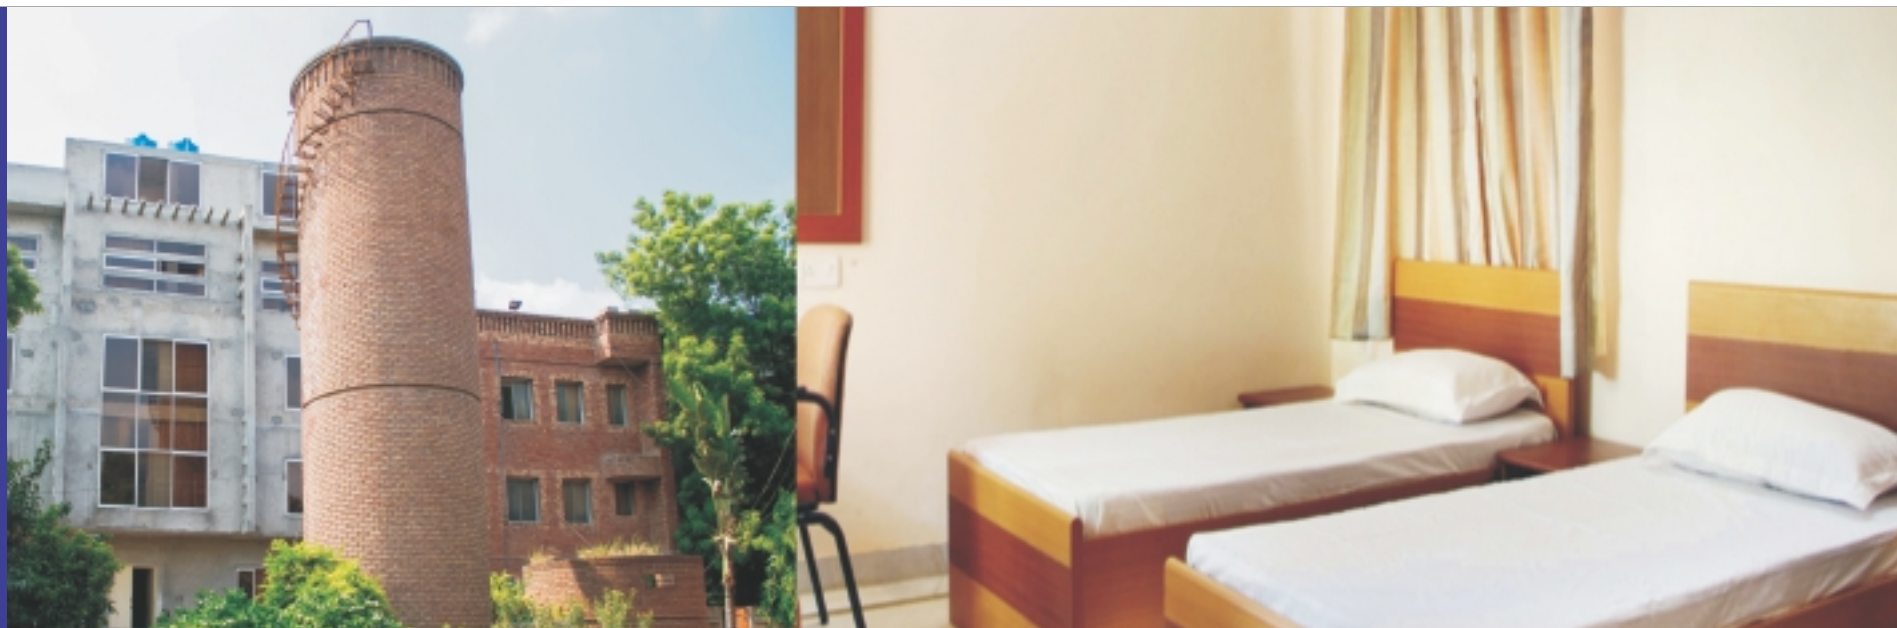

**DRESS CODE FOR MEDICAL/ DENTAL COLLEGES STUDENTS**

The wearing of prescribed uniform has peculiar importance in medical profession and all the students must take pride in their identity.

According to UHS instructions on dress code, following dresses during classes and ward duties are prohibited:

1. Jeans
2. Shorts
3. T-Shirts (half sleeves)
4. Chapals/ Sleepers/ Sandals
5. Necktie

While visiting the hospital or patients, the students must wear clean half sleeve medical coat. The students should dress smartly in neat and clean cloths.

Three spacious hostels with all services including boarding facility, for girls and boys, to accommodate nearly 600 students, are available adjacent to the college premises. Security staff remains on duty for 24 hours. Transport has been provided for the students for their clinical work in affiliated hospital. The hostel atmosphere is calm, quiet and conducive for studies. The security and comforts of the students always remains our prime objective. Two Generators of 220 KVA and 600 KVA have been installed in the hostels as a stand-by arrangement in case of cutting off electrical supply. Hostels are supervised by senior teaching faculty members boarders are expected to observe the following rules.

Hostel Rules and Regulations

1. Hostel charges are non refundable
2. Hostel charges are to be paid for the entire academic session
3. Hostel Security charges are refundable
4. Hostel timings, visit timings for visitor are as follows
 Summer 04:00 pm to 09:00 pm Winter 03:00 pm to 08:00 pm Sunday 09:00 am to 09:00 pm
5. The boarders will provide names of their parents, brothers and sisters who will be regarded as official visitors for a specified boarder and will be allowed to see that boarder. No outsider other than the given names will be allowed to enter hostel premises
6. Any type of political involvements/celebrations/festive activities are strictly banned in college/hostel premises.
7. Transportation charges for 1st/ 2nd year adjusted in their study and other tours.
8. Subscription for mess meals is compulsory to discourage students having substandard and unhealthy meals from outside.
